## THE VACATION ENDS

### And Parliament Reassembles

London, Oct. 30. Parliament reassembled this afternoon, after the long summer vacation, to complete the work of the present session, which will probably end on November 16. The new session will be opened by the King in State on November 20. Measures remaining to be disposed of before the present session ends include the Incitement to Disaffection Bill, the Betting and Lotteries Bill, the Electricity Supply Bill, which are all of considerable domestic importance. There was a large attendance of members when the Commons assembled and a welcoming cheer was given from all sides of the House when the Leader of the Opposition, Mr. George Lansbury, appeared for the first time since his prolonged illness.

## SITUATION IN INDIA

### Continues To Be Satisfactory

London, Oct. 30. At question time in the House of Commons to-day, in response to a request for a statement on the Indian situation, the Secretary for India, Sir Samuel Hoare, said it continued to be satisfactory.

Civil disobedience had disappeared and public interest was now centred mainly on the elections to the Legislative Assembly. Special measures had been adopted against terrorism and were being firmly maintained, and active public opinion was developing in Bengal against the terrorist movement.

Action had also been taken against certain Communist organisations whose activities constituted a threat to law and order. On the North-West Frontier the situation was tranquil.

## MANCHUKUO ORDER FOR BRITAIN

Tokyo, Oct. 30. The "Japan Advertiser," American-owned newspaper here, announces that the Federation of British Industries Mission has secured orders from the Government of Manchukuo for valuable railway materials.

The materials consist of rails and equipment valued at approximately £8,000,000. The contract has been financed through Seligman Bros. on a twenty-year credit basis, the paper adds.

## SUBTERRANEAN STARVATION

### Polish Miners Protest

(Special to the "Hong Kong Daily Press" (Copyright).)

Warsaw, Oct. 30. Another subterranean starvation strike similar to that which recently took place in Hungary has been begun by the Polish miners in the "Kleofas" pit in Polish Upper Silesia as a protest against the proposed closing down of the pit. The miners descended to the shaft and sent a message that they would not come to the surface again till the management had rescinded their decision. The Socialist trade unions have appealed to the Government to intervene while the management demanded police protection and had sympathising miners who had not accompanied their comrades in their desperate descent removed from the premises by the fire brigade.

## TWO GENERALS ARRESTED

### For Dealing With Mihailoff

(Special to the "Hong Kong Daily Press" (Copyright).)

Sofia, Oct. 30. Two Bulgarian generals, the former military governor of Sofia, General Georgiev, and the former head of the Press Department, General Pankov, were arrested here on Tuesday on a charge of having had dealings with the notorious Macedonian revolutionary, Ivan Mihailoff, chief of the so-called Imro organisation which is held responsible for numerous terrorist acts and which is also believed to have had a hand in the Marseilles assassination. As reported by Transocean, Mihailoff himself has been arrested at Ankara at the request of the Yugoslav and Bulgarian police authorities who demand his extradition.

## DR. JAEGER GIVES UP HIS POSTS

(Special to the "Hong Kong Daily Press" (Copyright).)

Berlin, Oct. 30. Dr. Jaeger who recently retired from active participation in the re-organisation of the German Protestant Church, has now resigned from his position as legal adviser to Reichsbishop Mueller and has further relinquished his post as Under-secretary and chief of the department for spiritual affairs in the Prussian Ministry of Education, according to an announcement made here on Tuesday.

## CHICKEN SAUTE A LA PORTUGAISE

Olive oil is by far the best frying medium and almost indispensable to a successful "saute"

Preparing the Chicken:

Cut up the chicken as for a fricassee and put the lightly seasoned pieces, skin side down, in a pan containing two tablespoonsful of just smoking olive oil on a moderate fire. When the pieces are all in reduce the heat and let them fry for five or six minutes. Turn over those pieces which are browned and cook the other side, taking out and keeping warm the smaller pieces as they finish cooking. When they were all done, keep them warm.

Tasty Additions

Add another tablespoonful of oil to the pan, and when it smokes, fry in it lightly a quarter of a pound of sliced mushrooms. Strain olive oil away and drain the mushroom slices. Put just under an ounce of butter in the pan and fry for a minute or so without colouring two ounces of finely chopped onion. Add three finely chopped tomatoes which have been skinned and had their pipes removed, and cook these with the onions for five minutes. Add a glass of dry white wine and boil till it all disappears.

Put back the mushrooms, add a piece of crushed garlic the size of a pea, a level tablespoonful of tomato puree, salt, pepper and half a cupful of stock, and cook these all gently together for ten minutes. Stir the bottom of the pan well, to mix the juices which have escaped from the chicken.

How to Serve

Now put back the chicken pieces with the juices which have come from them while keeping warm, bury them in the sauce, put a cover or plate over the pan, and put it by the side of the stove so that the meat heats through without the sauce boiling. Thicken with flour and water and add a little butter. Arrange the chicken on a dish, pour the sauce over it, and sprinkle on coming to the table with chopped parsley.

The dish should be garnished with small tomatoes stuffed with forcemeat.

## SOUFFLES—

Savoury and Sweet

First, let's try a hot Potato Souffle. Ingredients: 1 lb. cooked potatoes, 1 oz. butter, 4 oz. grated cheese, 2 eggs, 3 tablespoons milk, pepper, salt.

Method: Pass the potatoes through a sieve, or mash them very finely. Put the butter and milk into a saucepan, heat over the fire and add the sieve potato and the grated cheese. Mix well together and season to taste with pepper and salt. Remove the saucepan from the fire, let the contents cool slightly, then beat in the yolks of eggs and lastly the whites of eggs beaten to a stiff froth. Pour the mixture into a well greased pie dish or souffle dish and bake until well risen and lightly browned.

N.B.—The success of souffles depends largely upon the whites of the eggs being beaten to a very stiff froth, steady cooking and quick serving, as it falls quickly when taken from the heat! The mixture should not more than half fill the mould as it rises very much when cooking.

Crab Souffle

Ingredients: 6 oz. crab meat, 1 oz. butter, 1 oz. flour, 1-gill milk, 3 eggs, pepper, salt.

Method: Boil the crabs, pick out the meat and chop it finely. Melt the butter in a saucepan, stir in the flour and season to taste. Then add the yolks of eggs beaten up in the milk and stir over the fire until the mixture is thick. Take it off the fire and mix in the fish, and lastly stir in the whites of eggs beaten to a stiff froth. Pour the mixture into a buttered pie dish or souffle dish and bake for half an hour. Serve at once.

Orange Souffle

Ingredients: 1 wine glass orange juice, 1 teaspoon very finely chopped orange rind, 1 oz. butter, 1 oz. flour, 1 oz. soft sugar, 3 yolks of eggs, 4 whites of eggs, a pinch of salt.

Method: Melt the butter in a saucepan, add the flour and mix well together with a wooden spoon. Then add the milk and stir over the fire until the mixture thickens and draws away from the sides of the saucepan. Remove the saucepan from the fire and add the sugar, salt, orange juice and rind. Then add the yolks of eggs, one at a time, and beat well together. Beat the whites of eggs to a stiff froth and stir them in lightly at the last. Pour the mixture into a well buttered souffle mould and steam very gently from 30 to 40 minutes or until well risen and firm to the touch. Turn out and serve with any nice sauce.

Coffee Souffle

Ingredients: 1 gill strong black coffee, 1 gill milk, 1 oz. flour, 1 oz. butter, 1 oz. soft sugar, 4 yolks of eggs, 5 whites of eggs, a pinch of salt.

For the Caramel—3 tablespoons sugar, 3 tablespoons water, a squeeze of lime juice.

Methods: Put the ingredients for the caramel into a saucepan and boil quickly without stirring until it assumes a golden brown colour, then stir it well. Warm a plain mould, pour in the caramel and keep turning it round and round until the interior of the mould is completely coated with the caramel which will become hard almost immediately. Now make the mixture as directed in the previous recipe and pour it carefully into the prepared mould. Steam very gently from 30 to 40 minutes or until well risen and firm to the touch. When ready turn out and serve immediately. The caramel will form a sauce round and over the souffle.

## Home Sweet Making

You can make the most delicious fondants and creams and other sweets at home with quite the professional touch, for some up-to-date devices are obtainable which will help you to make them expertly.

One of these items is a funnel-like sugar dropper which has a stick by means of which sugar cream or paste is dropped into the tiny shapes that produce a variety of creams in different designs.

You can get shell, nuts and other fancy shapes. The dropper is 4s. 6d., and the cream shapes are 1s. 6d. A dozen will make an attractive selection of sweets.

Then, for more pretentious confectionery, there is the fondant-mat, which has a perforated surface into which the fondant mixture is poured.

When the mixture is set, the mat is bent face downwards over a dish, and out fall an assortment of fondants of which the maker will be proud. The fondant-mat costs 7s. 6d. These are not yet obtainable locally.

## Fresh Fruit Jelly

Make a pint of lemon jelly, using a small cupful of rind in the water, which must, of course, be reduced in quantity accordingly. Coat the inside of a mould with the jelly, leave to set, and put in a layer of fruit. Use stoned grapes, sliced bananas, pieces of pineapple, and any other fruit available, first steam-

ing it for a short time in syrup and draining well.

Pour in some more jelly, leave again to set, add another layer of fruit, and so on until the mould is almost full. Leave to set in a very cold place, preferably on ice. Serve with whipped cream.

# It's EASY to Catch COLD or 'FLU' when TRAVELLING

# 'ASPRO'

## WILL PROTECT YOU

GERMS are no respecters of persons. Wherever you travel you cannot tell the moment you are likely to catch a cold—or even the 'Flu'. The proved protection is 'ASPRO'. At the slightest sign of sneezing—sore throat—feverishness, etc., take 'ASPRO' according to the directions in the packet. Quick relief is assured, because 'ASPRO' expels the body poisons through the pores of the skin, and, therefore, restores one to normal health by eliminating such poisons and not suppressing them. Furthermore, 'ASPRO' is safe, sure and certain—it neither harms the heart nor stomach, and it conforms to the standard of purity laid down by the British Pharmacopoeia—the guiding authority of the medical profession.

Dear Sir,  
I thank 'ASPRO' Tablets for warding off influenza from my little boy, aged nine, as well as myself, when my wife, who was then an invalid, was in bed, and I was unable to take them, and I was up in hospital with double pneumonia, while we were getting quite, but stopped them with 'ASPRO' and nothing else.  
My wife is a staunch advocate for their use, now, and takes 'ASPRO' at the first sign of a cold. 'Wishing 'ASPRO' and their inventors all the good luck they deserve—I am,

Stubborn Cold Goes — PROOF!

6 Hunter Street, WILMSTON.  
Dear Sir,  
I thank you for your kind interest in directing me to the certain way to defeat a cold or the nasty 'FLU' which I had been suffering from for several days, and lastly for the 'ASPRO' tablets which I had tried so many other remedies before. On Thursday last I suffered from a very severe cold, and my head ached so much that I could hardly move. I took one 'ASPRO' tablet, and in half an hour the pain was gone. I took another one at 8 o'clock, and by 10 o'clock I was feeling much better. I took a third one at 11 o'clock, and by 12 o'clock I was feeling almost well. I took a fourth one at 1 o'clock, and by 2 o'clock I was feeling perfectly well. I took a fifth one at 3 o'clock, and by 4 o'clock I was feeling perfectly well. I took a sixth one at 6 o'clock, and by 7 o'clock I was feeling perfectly well. I took a seventh one at 9 o'clock, and by 10 o'clock I was feeling perfectly well. Launch Of The Apollo

(Special Air Mail Service)

London, Oct. 13.  
H.M.S. Apollo is to be launched at Devonport Dockyard about 5 o'clock this afternoon. The naming ceremony will be performed by Lady Florence Boyle, wife of Admiral Sir William Boyle, K.C.B., Commander-in-Chief of the Home Fleet. It is understood that in launching the ship Lady Florence will keep to the old practice of using a mallet and chisel to sever a cord across the ship's bows, instead of the more recent custom of using a silver hatchet.

The Apollo is the last of the three cruisers of the 1932 construction programme to take the water, the Gaitea having gone afloat at the Scott's yard, Greenock, on August 9, and the Sydney at that of Swan, Hunter and Wigham Richardson, Wallsend-on-Tyne, on September 22. She will be the eighth ship of the Leander class, built in accordance with the London Treaty, of 7,000 tons, 32 knots speed, and an armament of eight 6in. guns.

The name of Apollo came into the Royal Navy by the capture of the French 30-gun East Indiaman Apollon in 1747. She was renamed Apollo and served as a hospital ship under Boscawen in the East Indies. In the second Apollo (originally called the Glory), Falconer, author of "The Shipwreck," served as a purser. She served in various actions of the war of American Independence. There followed a succession of 38-gun frigates of the name, launched in 1794, 1800, and 1805, all of which served in action during the Napoleonic wars. Later ships were in the first China war of 1842 and the Russian war. The last Apollo was a second-class protected cruiser launched at Chatham in 1891. In common with others of her class she was converted into a mine-layer, and served as such during the first part of the War. When faster vessels were taken up for this duty the Apollo became parent ship of the 4th Flotilla of 42 destroyers at Devonport for convoy, escort, and other duties. She was scrapped in 1920.

**JACKIE COOGANS ALLOWANCE**

£1 8s A Week While Awaiting £200,000

(Special Air Mail Service)

London, Oct. 13.  
Jackie Coogan celebrates his twentieth birthday on Oct. 28. He will then have only a year between him and the fortune of £200,000 which has been accumulating since he first appeared as a juvenile star.

He has been struggling along with exactly £7 (£1 8s) a week. His parents, profiting by the experience of long, lean years in vaudeville, established a trust fund for their son at an early age.

When Coogan recently went to the University of Southern California, his parents discovered, however, that £7 a week was hopelessly inadequate, and promptly made a liberal advance.

**SCOTS LEGAL EXPERT**

Dies In Glasgow

(Special Air Mail Service)

Edinburgh, Oct. 13.  
An expert on conveyancing problems, Mr. John McConnachie died suddenly yesterday at his home in Glasgow. He was in his 90th year, and he had been at business on Thursday.

It is to Mr. McConnachie that Scottish married women owe their legal emancipation. He was chiefly responsible for the passing of the Married Women's Property Act of 1920, before which a Scottish married woman was entirely under her husband's control in anything that related to her own property.

Mr. McConnachie was born in South Ayrshire, and served his apprenticeship in a Maybole writer's office. Later he came to Glasgow, and in 1876 he joined William Gillies in a partnership which continued unbroken under the name of John Stewart and Gillies for nearly 60 years.

He quickly established a reputation as an expert on conveyancing, and in 1912 he was appointed a member of an advisory committee instituted to carry out conveyancing reforms. Its work extended over 14 years, and the seven measures which got to the Statute Book helped greatly to simplify conveyancing law.

Mr. McConnachie leaves four daughters, one of whom is Lady Weir of Eastwood.

#### "LOVE, NEVER AGAIN!"

Coming To The  
Central

In the very near future the Central Theatre will show "Love, Never Again," a light and airy Continental comedy-romance of the type that Lillian Harvey made famous before becoming a Hollywood star, with the delightful Lillian Harvey heading a cast of European favourites.

Highlights of the film include a glittering carnival in Nice, an exciting motorcar chase and some very beautiful backgrounds.

The story embraces comedy, romance and a slight musical theme, centering around Sandercock, (a young man very susceptible to feminine wiles), who in desperation makes a wager of a small fortune, the condition being that he remains free of entanglements with women for five whole years. He adventures on his yacht, where he thought he would be safe, and the unexpected intrusion of a fascinating swimmer provide many humorous complications.

#### ADVANCE OF DAIREN

Foreign Trade Surpasses That Of Yokohama

Dairen, Oct. 13.

This port of Dairen, gateway to Manchuria, is fast becoming one of the leading centres of trade in Asia judging by the following official statistics.

1. Dairen's exports in July amounted to \$27,713,000 and her imports to \$39,090,000.

2. Dairen's foreign trade already surpasses that of Osaka and Yokohama and is not far behind that of Kobe.

#### BY WHOSE HAND?

Ben Lyon Versatile  
Athlete in Lead

Ben Lyon was both a Southern gentleman in Atlanta, Georgia, on February 6th, 1901, but his family moved to Baltimore long before young Ben's accent began to develop a drawl.

From the age of eight to twelve he stood a good chance of becoming a doctor because all the Baltimore kids his age looked with reverence on Johns Hopkins University.

Never got to study even elementary biology because he was sent to New York with his sister to chaperon her while she attended private school.

Went to the Famous Players studio on West 57th Street one day to apply for extra work. A director, stepped into the room, spotted Lyon and said, "He'll do!" Went to work the next day.

When his parents saw the picture they had to stay through two showings to find Ben, his part was so small.

Didn't get further than extra, so turned to the stage, age seventeen. Secured a role in Booth Tarkington's "Seventeen." Later played with Jeanne Eagles in "The Wonderful Thing," in "Three Live Ghosts" and "Sun Up." Eight months in stock in Buffalo and Providence. Favourite stage role was "The Boomerang."

Boxing, tennis, volleyball, swimming and squash keep him fit. He and his wife, Bebe Daniels, make a fine pair on the tennis court.

May Sutton, Bundy, nationally prominent women's tennis player, thinks he plays a good enough game to enter the national championships. Ben disagrees; says he is just average.

Aviation gives him thrills. Two years ago, during "Hell's Angels," Ben spent eight months and considerable money studying flying to enlist in the Reserve Officers Corps of Army Aviation. Now a Lieutenant in the 329th Pursuit Group at Long Beach.

Was the first actor ever to pilot his own plane in a picture. Instead of using a double. That was in "The Flying Marine," a Columbia picture.

Not only flew the plane, but photographed himself by means of a camera attached to the wing and focused on the cockpit.

Claims he is 100 per cent domestic. Married Bebe Daniels June 14, 1930. Both are enthusiastic over their home, interior decoration, antiques and their baby. They like to plan things together, shop together and play together.

His latest role is a newspaper reporter who solves several mysterious murders that occur aboard a fast cross country express at night. The picture is "By Whose Hand?" a Columbia picture that features Barbara Weeks with Ben Lyon, which opens to-morrow at the Alhambra Theatre.

3. Imports for the current year already total more than the record of Yen. 493,000,000 established last year.

4. Construction has shown a steady increase, 377 structures being built in 1933, 410 in 1933, and 422 so far this year, excluding government buildings.

5. The South Manchuria Railway Company is investing approximately Yen 2,000,000 this year in the improvement of Dairen's waterfront facilities, including the completion of a giant pier at a cost of Yen. 1,100,000.

#### HER REIGN WAS SENSATIONALLY SHORT ... But She Got Done!

#### THE BITTER BIT!

In "Here Comes The Groom"

With Jack Haley, the well-known comedian in the leading role, "Here Comes The Groom" which opened at the Queen's Theatre yesterday, is a picture which affords plenty of laughs.

The story, crammed with amusing situations, begins with an argument between Jack Haley and Isabel Jewell, his sweetheart. She is leaving him flat because he is such a failure at his chosen profession, burglary. She cites her brother and father who are such successes that they now repose in the city jail.

Determined to "show" her, Haley sets out to hold up a poker game. But some real robbers hold up Haley while he's holding up the game and get away with everything, including Haley's pants.

Chased by the "cops" Haley takes refuge in a pullman compartment of a young bride whose husband has just deserted her because her father lost his money. Not to be outdone, she forces Haley to accompany her home as the new bridegroom, who is a famous masked radio singer.

Arriving home, Haley learns that Mary Boland, the girl's aunt is a "nut" over radio and especially over the masked tenor, and, from then on complications pile up swiftly, which you are sure to enjoy.

Supporting Jack Haley are Mary Boland, Neil Hamilton, Patricia Ellis, Isabel Jewell, Sidney Toler and Larry Gray who played their parts exceptionally well.

Gloria Swanson has at last been assigned to a picture after a series of false reports. She will play opposite Clark Gable in "Riff Raff" for M.G.M.

#### "THIRTY-DAY PRINCESS"

At The King's

Sylvia Sydney, figuratively speaking, has emerged from the cocoon and now is a butterfly.

"Thirty-Day Princess," her new Paramount film, showing to-day at the King's Theatre, with Cary Grant as her leading man, gives Sylvia more than thirty changes of modern, fascinating clothes which fairly scream with luxurious newness.

Usually her screen wardrobe consists of prison uniforms, carnival dancing girl's outfits, drab cheap clothes of a poorer class of working girl; but here in "Thirty-Day Princess," for the first time in her screen career, she abounds in exotic hostess gowns, afternoon frocks, rich dinner gowns and luxurious evening gowns, with smart beautiful accessories and jewels.

Directed by Marion Goering from an original story by Clarence Budington Kelland, the film version was written by Preston Sturges, noted Broadway playwright, and Frank Partos, Sam Hellman and Edwin Justus Mayer adapted and wrote additional dialogue. B. P. Schulberg is the producer.

The story, a satirical comedy, presents Miss Sydney as the actress who is hired to impersonate a royal princess, who has come to this country to front for a large bond issue, but falls ill with mumps.

The banker's enemy, a man they've sworn to ruin, is a young newspaper publisher. Their plan is for the actress to cause him to fall in love with her and then denounce him publicly.

But what they don't reckon with is the possibility of the girl falling in love with the publisher. She does, and for thirty days she's a

#### "SON OF KONG"

Coming To The  
King's

That another gigantic ape, the son of King Kong, is soon to make his appearance on the screen in a sequel to that sensational adventure fantasy, is now definitely assured.

The sequel film from RKO-Radio titled "Son of Kong," is a continuation of the adventures of Carl Denham, intrepid motion picture explorer of the original story, coming on Sunday to the King's Theatre.

Though the great ape will be the central character in the new adventure, as was his forbear in "King Kong," the story of "Son of Kong" is written around an entirely new theme, and presents a new romance.

Denham, enacted again by Robert Armstrong, returns to the mysterious "Skull Island," where he captured the original Kong, and there finds love and a new and more startling series of adventures, while seeking a buried treasure of diamonds.

In "Son of Kong" the heroine is Helen Mack. Frank Reicher, Lee Kohlmar, Victor Wong and John Marston are other members of the cast.

Ernest B. Schoedsack directed the new thriller, while Willie O'Brien, Hollywood's mystery scientist who revives denizens of prehistoric ages, devised the thrill sequences.

princess with a nation at her feet, but also a girl wanting only one man. How the romance finally is completed brings the picture to an unusual climax.

#### DYNAMIC DRAMA

"The Man Who Dared"  
At The Alhambra

"The Man Who Dared" flashed across the screen of the Alhambra Theatre yesterday, and gave us one of the most gripping of screen plays.

This Fox picture, based on some colourful and romantic incidents in the life of Chicago's late mayor, Anton Cermak, is brimful with drama, action, dynamic excitement and a good supply of human comedy.

It takes us through the life of a youth who comes to this country, an immigrant from his native and beautiful Bohemia. It plants him in the raucous Middle West of the thirties, and sets him off on a career that will always stand as one of the most remarkable in American life.

Surrounded on all sides by political corruption and crime that acts at the drop of a hat, this strong young man carves a career of which the world is destined to take deep notice. His characteristics are primarily fighting heart and ready fists, but back of these are an outlook toward righteousness that will not be downed.

"The Man Who Dared" is one of those rare films that merges all the precious elements of real entertainment. It has action that alternates with the tenderest of romance. Its setting forms a frame for genuine pathos and hilarious comedy.

Preston Foster has the leading role. While he has appeared in a number of motion pictures, it is this one that will thrust him forward as one of the foremost of our younger actors. Zita Johann has the leading role opposite him and makes a believable person of the woman that such a man would

## Around the Courts

### THE ROUTLEY CASE

The re-hearing of the case in which William Gordon Routley, a land bailiff attached to the P.W.D., was summoned for the alleged assault of a married woman, Lam Yuef Fong, was continued before Mr. J.H.B. Lee at the Kowloon Magistracy yesterday. Mr. Peter Sin represented the complainant while Mr. F. H. Loseby of Messrs. Russ & Company appeared for defendant.

At yesterday's hearing Sub-Inspector Cunningham testified that no allegation was made regarding defendant kicking complainant and that at all times he (witness) had been quite fair to Routley. He was questioned by Mr. Sin regarding the procedure of the Officer-on-duty when a report is made at the station and explained that first of all a rough statement is made, then a skeleton one and finally a full report.

The next witness called was Dr. Yiu Chue Kwong, who examined the complainant's leg in Court and said that he found two scars, one being vertical and the other horizontal.

Mr. Loseby informed the doctor that during his absence it was found that one of the wounds was caused by scratching. Asked if there would be any difference between a wound caused by a finger nail scratch and one caused by a stone thrown with great force, witness replied that it would be hard to tell the difference at times.

Se To Hing Yeung was next called and related his interview with Mr. Bidmead, A.S.P. on the 10th of August. After examining the witness Mr. Loseby drew his witness's attention to the difference of the statements made then and now and remarked that he would take this up with the witness when the case comes up again to-day at 2.30 p.m.

### BAG SNATCHER GAOLED

Sentence of six months' hard labour was passed by Mr. Macfadyen at Central Magistracy yesterday on Kwong Yam 56, who was charged with stealing a handbag from Yuen Wai Hing, a spinster, living at No. 92, Second Street.

It was stated that at about 7.15 p.m. on Monday, the complainant had her handbag snatched from under her left arm while walking in Queen's Road West. An hour later, a Chinese detective sergeant who was on patrol duty in Queen's Road Central, arrested the defendant. The handbag was found in defendant's possession, tucked under his jacket. Defendant stated that he brought the bag down with him from Macao, but from a photograph found in the handbag the detective traced the complainant.

The defendant was also charged with returning from banishment, and on this count he was remanded for seven days.

### LOCAL FIRMS FINED

Before Mr. Hamilton at Central Magistracy yesterday, several local firms were summoned for having failed to send in, within seven days, a declaration of exported goods to the Superintendent of the Imports and Exports Department. A fine of \$25 was imposed in each case.

Mr. O. E. C. Marton, appearing for the Texas Company (China) Ltd., who were summoned in respect of 100 drums of gasoline, 3,000 tins of kerosene and ten drums of lubricating oil, pleaded guilty to a technical offence, saying that the summons came as the greatest surprise to the company, as they had always taken the greatest care, and had no intention whatever of infringing the Ordinance.

The other defendants were the Asiatic Commercial Corporation, Bank of Canton Building, who were summoned in respect of 242 tons of fuel oil exported to Canton on the steamer Aleto; D. Chelaram, China Building, summoned in respect of four cases of Chinese slippers, eight cases of silk and linen goods, three cases of camphorwood trunks and seven cases of leather suitcases, exported on the President Pierce to Los Angeles, Colon, Curacao and Panama; the Fung Yee-lung firm, No. 10 Queen's Street, in respect of 40 cases of Chinese wine exported to San Francisco on the President Pierce; the Shing Tung Company, No. 62 Bonham Strand East, in respect of 157 cases of foodstuffs exported to Chicago; and the Yuen Fung-hong firm China Building, in respect of 73 cases of canvas shoes exported to George Town, Castries, Roseau and Spain.

Yu Ching Tak, unemployed, was charged before Mr. Hamilton at Central Magistracy yesterday with loitering and with having returned from banishment. It was stated that defendant was arrested on the verandah of No. 3 Causeway Hill, the residence of Mr. M.H. Arnold, of the Hongkong Electric Company, and that he was locked up in a cupboard while the police was being called. The case was adjourned for three days.

On a charge of stealing 70 cents from Lau Cheung, a rattle worker, at Isako's Circus on Tuesday night, two unemployed Chinese, Li Yau and Tam Chiu were each sentenced to two months' hard labour by Mr. Hamilton at Central Magistracy yesterday.

It was stated that the defendants were seen by two district watchmen attempting to pick the pockets of people at the Circus by using a knife. They finally succeeded in picking the pocket of the complainant. The second defendant put his arm in front of the complainant, covering up the actions of the first defendant.

and several times, when it seemed as though nothing could prevent a try, their own errors effectually did so.

Guy's, who packed 3-4-1 (an example which the Services followed in the second half), were generally rather untidy, and it was a pity to see several instances of obstruction at the base of the scrum and of premature tackling at the line-out.

A splendid cut-through by Alexander, gave Guy's their first try. He was stopped by Clutterbuck—a sound full-back—but Giesen was with him, and Alexander converted. The Services drew level, when Dustin, picking up, dodged over, and Forrest kicked a goal with a shot that swerved like a snipe.

Another Alexander-Giesen effort put Guy's three points up at half-time, and they went further ahead when Alexander gave Wright a perfectly-timed pass for the latter to race round, but the kick failed. Forrest landed a long-range goal from one of several penalties, but Guy's replied at once, Giesen breaking through to send Alexander over for a try, which he also converted.

## GRAND TATTOO

Motor-Car Parking Arrangements

In connection with the Grand Tattoo which is being held at 800 Kun Poo on November 1st, 2nd, and 3rd, the public are further notified:—

1. Owner-driven cars must not enter Caroline Hill Road at the conclusion of each performance. Owner and passengers should enter their cars at the car-parks.

2. Official cars and chauffeur-driven cars bearing a car-park label will be permitted to enter Caroline Hill Road from the west end near the Po Leung Kuk and approach No. 1 Entrance to pick up their passengers as directed by Police. They will only be allowed to halt for sufficient time to enable passengers to embark, but otherwise will keep on the move. If their passengers are not available at the time the cars will make a further circuit of Caroline Hill Road.

3. Cars that arrive later than 8.15 p.m. will be stopped at the junction of Caroline Hill Road and Eastern Hospital Road, where passengers will disembark and proceed to the ground via Eastern Hospital Road and No. 4 (Late) Entrance near the Indian Recreation Club. They will not be permitted to go to No. 1 Entrance.

4. A stand for 30 taxis will be provided on the south side of Yee Wo Street, west of the tram terminus.

Houses Change Hands

Two houses in Lockhart Road, Nos. 64 and 66 were sold by public auction at the China Auction Rooms yesterday. The property has an area of 1,858 square feet.

The upset price was \$20,000 and there was only one bidder, Messrs. Hong Yuen Company, who secured the two houses for \$20,100.

## B.A.T. RE-ORGANISATION

We learn that British-American Tobacco Company (China) Limited has just incorporated two new Associated Companies named Yee Tsong Tobacco Company Limited, and Yee Tsong Tobacco Distributors Limited.

These new Companies will take over on 1st November, 1934 the businesses previously carried on in China by British-American Tobacco Company (China) Ltd., British Cigarette Company Limited and Enterprise Tobacco Company Limited. We understand that this is a scheme of domestic re-organisation whereby it is hoped to carry on business more efficiently and more effectively. The new Companies have no interests in Manchuria, Hong Kong, Macao and Indo-China.

There will be no change of trading names in Hong Kong, Macao and Kwong Chow Wan.

## RARE STAMP

(Special Air Mail Service)

London, Oct. 13.

Yet another portion of the Tam-ous Hind collection of postage stamps is to be sold by auction in London. It is anticipated that the presence of Continental buyers will be more than usually noticeable on this occasion, as the section to come under the hammer on October 22 is that devoted to French and French Colonial stamps. Prospective purchasers will see lots well worth bidding for, because there are included in this part of the late Mr. Arthur Hind's collection some of the choicest items known to philatelists. A few of the stamps are the only ones in existence, and therefore cannot really be valued in hard cash, while of the others more than a few are so rare that, at past sales, they have been catalogued at over £1,000 apiece. Whether they will again fetch such sums remains to be seen, but the sale will undoubtedly create exceptionally keen competition among the leading philatelists of the world.

## CHINESE DETECTIVE ON ASSAULT CHARGE

Alleged Attack On Hotel "Boy"

An incident at Kau U Fong in the early hours of September 9 when it was alleged, a Chinese employed as a "Boy" at Gloucester Building was assaulted by a Chinese detective, had its sequel at Central Magistracy yesterday when Leung Chiu, C477, was summoned before Mr. Macfadyen by Kwan Chun for common assault.

Mr. M.A. da Silva, appeared for the complainant, while Mr. R.C.H. Lim instructed by Mr. J.M. Hall, was for the defence. Mr. T. Murphy, assistant Director of Criminal Investigation, watched the proceedings on behalf of the police.

Outlining the facts of the case, Mr. Silva said that the incident occurred at Kau U Fong at 2 a.m. on September 9 when complainant, after leaving his friend's house at 21 Peel Street, stopped at a street stall in the Kau U Fong with this particular friend and another to partake certain refreshments. The complainant was the first to finish and stood a few yards away from the stall, waiting for his friends. It was then that the defendant came up to the complainant and said that he wanted to search him. The complainant at once put up his hands and allowed himself to be searched. After this had been done and nothing was found on his person, the defendant enquired of complainant what his occupation was and where he was working. The complainant informed him that he was working as a "boy" at the Gloucester Building.

Apparently being prompted by this report, the defendant accused the complainant of being a procurer, which the complainant indignantly and strenuously denied. On the complainant's denial, however, the defendant, it was alleged, seized hold of him by the hair and started pummeling him on the back with his fist, reiterating time and again "you are a procurer, why do you deny it?" The complainant then started shouting out "save life" whereupon the defendant pushed him to the darker portion of the street against the wall and snatching the handkerchief which the complainant had in his hands to wipe his forehead, attempted to stuff it into the complainant's mouth with a police whistle which he was holding in his hand. Defendant, however failed to do so but injured the complainant about the mouth with the whistle.

### Friend Interviews

The defendant then pulled the complainant into Aberdeen Street where another Chinese detective was stationed and from him the defendant borrowed a truncheon with which he prodded the complainant, at the same time again making the remarks that he was a procurer. It was then that the complainant said "I am not a bad person why do you assault me?" Instead of assaulting me bring me up to the police station now for enquiries.

The defendant did so, and they started out for the police station—the defendant, the complainant and one of the latter's friends. They had only gone a few paces, however, when another friend or acquaintance of both the defendant and the complainant came running up and enquired as to what was the matter. The complainant told him that after searching him, the defendant asked where he was working and when he had informed him that he was employed at Gloucester Building, the defendant accused him of being a procurer and on his denial, assaulted him. The defendant's reply was that the reason why the complainant was in custody was that when he (complainant) was having some congee a girl passed and the complainant deliberately splashed some of the congee on the girl's dress.

This mutual acquaintance informed the detective that he knew the complainant was an employee of Gloucester Building. The defendant on learning this released the complainant and went away.

The complainant, however, together with his friend and this mutual acquaintance who had interfered, went up to the station and reported the matter to the sergeant on duty. The defendant was not present at the time. On the following day complainant went to Dr. Chi Man Wal and was medically examined.

Medical Evidence  
Mr. Silva then produced evidence in support of his case.

Dr. Chi Man Wal, of China Building, stated that on September 10 he examined the complainant and found four wounds, three bruised and one open, on his back. All the wounds were circular in shape. The left side of the lower jaw was swollen and tender and on the inner side of the cheek on the same side, there was an ulcer. The wounds at the back, were in his opinion, caused by external violence. It was possible that some hard object had produced the violence. In his opinion, the wounds could not be caused by a fist as most of them were rather small, but they appeared to have been caused by a hard object similar to a fist, for instance, a policeman's truncheon. The open wound might have been caused by a similar instrument, but the violence must be stronger.

Cross-examined by Mr. Lim, witness said that when he examined the wounds, they were quite recently inflicted—within forty eight hours. It was not likely that the wounds had been inflicted three or four days before he examined the complainant as the colour was still fresh.

The complainant then gave evidence in support of Mr. Silva's outline, after which the case was adjourned.

## RICE IMPORT DUTY

Removal To Be Considered

Singapore, October 23.

The possibility of the import duty on rice being removed next year is raised by the report of the Select Committee on the 1935 estimates which was tabled at the Federal Council meeting on Tuesday morning.

The Committee approved additions on the expenditure side increasing the total by some \$20,000. The revenue estimate for 1935 was left unchanged, but a recommendation was recorded that if at any time during 1935 the excess of revenue over the estimate was such as to justify the removal of the import duty on rice, Government should consider its removal forthwith.

### State Interference

Speaking on the motion for the adjournment Mr. Egmout Hake referred to an instance of State interference with the Posts and Telegraphs Department which does not come under the decentralisation scheme. The speaker suggested that there should be

only one authority, the Director-General, subject to the control of the Postal Board.

The official reply was to the effect that it was in accordance with the terms of the Malayan Postal Agreement to show the details of agreement to which Mr. Hake objected.

### Pro-Malay Policy

The Undang of Rembau protested against any preference being given the sons or dependants of railway employees in the event of fresh vacancies arising as this would prejudice the chances of Malays securing a proper share of employment.

In the course of the official reply it was stated that the matter was to be discussed by the Conference of Residents, who would make a decision on the matter.

### A Profitable Sideline

The Raja Uda referred to the possibility of Government encouraging livestock breeding by the peasants as a very profitable sideline to all sections of the agricultural population.

Mr. Vivian Mackie urged the repeal of one of the provisions of the Trustees Enactment, Dr. Sri Radna Krishnan urged the opening of the Malayan Medical Service to locally-trained members of the profession and Mr. Lai Tet Loh spoke on Chinese labour restriction.

## A JAPANESE SUGGESTION

The Japanese suggestion for a non-aggression pact flat in Washington and though opinions on the matter are bound to differ, there is one section who will say that it is just as well it did, for all that it would connote from a Japanese standpoint is a closed door on any settlement or outstanding political questions in the Pacific. It is a well-known fact that Japan desires some bilateral understandings with her Pacific neighbours, such understandings to be so vague as to leave her with a free-hand to do practically what she pleases in the Far East, little realising that the situation in the Pacific is much too serious to permit of any such frivolous pastime. The international policy in the Pacific is multilateral, and not, as some people chose to think, bilateral.

## MANCHUKUO OIL STATEMENT

## An Unfavourable Reception

London, Oct. 31.  
The Manchukuo oil monopoly statement has been unfavourably received in the city which points out that the cast iron nature of the monopoly is in no wise mitigated thereby, and it is also expected that the oil monopoly will be the precedent as regards other industries such as tobacco which will be the next sufferer.

Many believe that Japan timed the declaration of the monopoly to follow the reception to the F.B.I. trade mission in order to show foreign Powers that they cannot get everything they want from Manchukuo while withholding recognition.

## HUNGER MARCHERS CLASH

New York, Oct. 30.  
Twenty unemployed hunger-marchers were beaten by police, two of them being rendered unconscious, and forty more were arrested when they clashed with the police on the Hudson River bridge and twelve of the combatants had to be rushed to hospital after the fighting was over.

Some of the marchers were armed with knives and the police, armed with machine guns and gas bombs waited for them at the bridge head.

Reuter.

It is underwritten by all the principal powers who abandoned arms and guns at the 1921 Washington Conference in exchange for political agreements. These agreements were very specific, for not only did they insure the status quo of Pacific relations by a security pact, but they also vouched for the territorial integrity and Administrative Independence of China. It was only after these open questions had been dispensed with that the Powers were able to arrive at a limitation of armaments agreement on a basis which insured the supremacy of every Pacific fleet in its own home waters, and when diplomacy has settled all outstanding problems, there is little need for a fleet on any other basis.

In his famous communication to Senator Borah on February 24, 1932, Mr. Henry Stimson stated concisely the inter-relationship and inter-dependence of the political and naval agreements signed at Washington. This, it will be remembered, was immediately controverted by the Japanese though the publicists of the latter could not blot out the time schedule, so patent was the fact, and it was only after the Washington Conference had settled the political problems of the Far East that the powers were ready to sign a naval limitation agreement. This latter clinched the nexus provided by the order of the conference. The status quo in regard to fortifications and naval bases was established by Article 19 of the naval treaty, and there could not have been any such self-denying ordinance in the absence of a security agreement.

Since this historic conference, there has been what may be described as the uprooting of this international policy. Because the Nine Power pact is in tatters, the Four Power pact which guarantees the status quo in the islands of the Pacific, is involved, and the powers may be said to have been on sure grounds when at last they invoked the Nine Power pact in the Manchurian dispute. As this pact specifically safeguards Chinese sovereignty, Japanese violated "a great beacon standing alone in the mazes of Chinese international relations" when she recognised Manchukuo as recently as February 21, 1933. Under the Nine Power pact, such a situation demands "full and frank communication." No parley has been held under that instrument for it has been subordinated to the League Covenant and the Kellogg Pact. Now, when the time has come to appoint a successor to the Washington Naval agreement which expires next year, Japan has declared a taboo against political discussions of all kinds. They will only engage in bilateral conversations for the purpose of negotiating non-aggression pacts which hold no meaning whatever in the circumstances of the times.

## C.E. RAILWAY TRANSFER

## Good Progress In Negotiations

Tokyo, Oct. 31.  
Reports from Japanese sources state that negotiations between Mr. Hirota and M. Yurenev for a detailed agreement for the transfer of the Chinese Eastern Railway are progressing very smoothly. An agreement was reached that the new balance sheet of the C.E.R. be submitted and Russia will be responsible for all claims by third parties on the C.E.R.

Other points require further negotiation and on these the Soviet Ambassador has asked fresh instructions from Moscow.

## CELEBRATIONS AT SHEK PEI

## Opening of Science Buildings

(From Our Special Correspondent)

Canton, Oct. 31.  
Preparations are being made by administrative officials of Sun Yat Sen University to celebrate its tenth anniversary, which will take place on November 11. That day will also mark the formal opening of the Schools of Agriculture, Science, and Engineering at Shek Pei.

There will be an athletic meet, parade of boy scouts, and review of the students, cadet corps. The buildings and equipments will be recorded by motion picture films for memory. Celebration exercises are to be held both at the old site in Civilization Road and at the new grounds at Shek Pei.

The appropriation for the University is \$180,000 a month, which is more than the grant received by universities in other parts of the country. Most of the professors are returned students from Japan, while several others were educated in the United States and Continental Europe. A good many of the medical professors are Germans, who were engaged by the former chancellor, Dr. Chu Chia Hua, a graduate from the University of Berlin, and now Minister of Communications in Nanking.

Mr. Chow Lu, the present chancellor, is the founder of the University, being instructed by the late Dr. Sun Yat Sen to establish an institution for higher learning. Through his efforts, the new campus and buildings at Shek Pei were completed. Mr. Chow is also responsible for the general improvement of the University, including a higher standard for admission and graduation.

In order to place the Consulship Line motorship Saturnia (23,940 tons gross) in a better position to face the rivalry of French and German liners on the South American passenger service, her owners have decided to remove the present engines, and put in more powerful ones, states a correspondent of Lloyd's List. These will give the vessel an average speed of 21 knots, or about a 10 per cent. increase. If the change is successful, similar improvements will be carried out in the Vulcania, the sister ship of the Saturnia. The largest motorship in the world, the Augustus (30,418 tons gross), at present engaged in the cargo and passenger service between Genoa and Buenos Aires, will also be equipped as soon as possible with higher-powered machinery.

## ROYALTY DRIVES A RAILWAY TRAIN

## PROMPT RESCUE BY KING BORIS

## Fire Incident In Engine Tender

(Special to "Hong Kong Daily Press")  
(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894.  
Received, October 31, 4:30 p.m.)

Sofia, Oct. 31.

The reports appearing in some sections of the foreign Press that the fire which broke out in the engine tender of the Royal train in which King Boris of Bulgaria was travelling has been caused by an explosion of an infernal machine concealed under the coal find little credence here. It is pointed out that the incident was of a harmless nature.

The King was travelling in a special car attached to an ordinary passenger train bound for Varna

when suddenly, while the train was passing Strazica station, fire broke out in the engine tender. The train was brought to a halt, and the King, who is a passionate engine driver, rushed to the locomotive and noticed that the driver's clothes had caught fire. The King tore the burning clothes off the driver's body and put him into a bed of his saloon car. The driver sustained serious injuries but he appears to be safe. The King then mounted the locomotive and personally drove the train to Varna.

It is declared that all the reports to the effect that an attempt had been made on the King's life, were entirely devoid of foundation.—*Transocean Kuo Min.*

## MR. BICKERTON'S CASE

(Special Air Mail Service)

London, Oct. 31.

The case of Mr. Bickerton has not been dropped. The British and Japanese Governments are in communication on the matter. Mr. Bickerton, it will be remembered, is a British subject who was arrested in Japan some time ago. He was severely maltreated in prison and was not at first allowed to communicate with his Consul. This is a test case in so far as the right of British subjects in police custody abroad to communicate with the representatives of the home Government may be established more clearly than it was before.

Mr. Bickerton himself is no longer in Japan, and there can be no question of his extradition in case the Japanese authorities should desire to take proceedings against him. Extradition is only possible between countries that have signed a mutual extradition treaty, and there is no such treaty between Great Britain and Japan.

## CABLE NEWS IN BRIEF

(Special to "Hong Kong Daily Press")  
(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894.  
Received, October 31, 4:30 p.m.)

Berlin, Oct. 31.

This year's commemoration of Schiller's 375th birthday will culminate on November 10 and 11 in a big celebration arranged and broadcast to the four corners of the earth in honour of the great poet's genius by the German Radio Company. The celebration will consist of recitations from Schiller's famous works to be delivered by Germany's leading actors and actresses as well as an impressive musical programme to be performed by the broadcasting company's orchestra and chorus under the direction of distinguished conductors. The entire programme will be relayed by a short wave directional transmitter to Asia on November 11 from 3 to 5 p.m. on D.J.A.—*Transocean Kuo Min.*

## M. DOUMERGUE AND HERRIOT AGREE

Paris, Oct. 31.

A complete agreement has been reached between Doumergue and Herriot in the course of their talk on Tuesday in the proposed constitutional reforms especially on the mooted question of the dissolution of the Chamber, according to rumours current in parliamentary circles here late on Tuesday evening.—*Transocean Kuo Min.*

## HUNGARY'S PROPOSAL TO AUSTRIA

Vienna, Oct. 31.

A "cultural pact" on the general lines similar to the pact recently concluded between Germany and Poland has been proposed to Austria by Hungary, according to Press reports here on Wednesday. The suggested pact is stated to comprise of three points, namely, promotion of historical research with special regard to the ties connecting the two countries; facilitation of the exchange of university professors and students; and furtherance of translation in literary and scientific works.—*Transocean Kuo Min.*

## STRAUSS' WEEK

Hamburg, Oct. 31.

This city is preparing the Richard Strauss' week for November 18 to 24 and the composer will conduct his Arabella and "Frau Ohne Schatten" on November 19 and 24th respectively.—*Transocean Kuo Min.*

## MYSTERIOUS RUSSIAN CRUISER

(Special to the "Hong Kong Daily Press")

Budapest, Oct. 31.

A powerful Soviet Russian cruiser, believed by experts to have been the Komintern, suddenly appeared on Wednesday in Roumanian waters, steamed twice up and down the Roumanian coast and then disappeared. The Roumanian authorities sent out a gunboat and two hydroplanes to follow but all of them were outstripped. It is assumed that the Soviet Fleet is now manoeuvring in the Black Sea and that the cruiser became separated and lost her bearings.—*Transocean Kuo Min.*

## PRINCESS SIBYLLA

The American dailies, appearing here, the New York Herald and the Chicago Tribune will merge into one single paper as from December 1, the New York Herald taking over the Chicago Tribune, according to an announcement.—*Transocean Kuo Min.*

## AUSTRIAN LOAN CONVERSION

Vienna, Oct. 31.

Anglo-Austrian negotiations concerning the proposed conversion of the Austrian loan of 1923 were brought to a successful conclusion on Tuesday, according to an announcement made here by the Finance Minister, Buresch. The Austrian delegation will now proceed from London to Paris and subsequently to Rome in order to conduct similar negotiations with other guarantors of the loan which amounts to 24.3 million sterling and of which the British share is 14 millions.—*Transocean Kuo Min.*

## LABOUR FRONT MASS DEMONSTRATION

Berlin, Oct. 31.

Three hundred and sixty thousand manual and professional workers of the German capital assembled on Tuesday in the spacious square of Lustgarten, situated opposite the old Imperial Palace for a mass demonstration to make the occasion of granting of the constitutional charter to the Labour Front organisation by Hitler. Dr. Ley, chief of the Labour Front and Matthias Engel, Berlin district leader, delivered speeches in the course of which they pointed out that the German Labour Front had grown to be the world's largest organisation which has no equal in any other country.—*Transocean Kuo Min.*

## MUTUAL GUARANTEE PACT

London, Oct. 31.

In the House of Commons, the Lord Privy Seal, Mr. Anthony Eden, in reply to a question, said both the German and Polish Governments had indicated to the French Government, and it was understood, also to the Soviet Government, certain difficulties which they saw to the conclusion of a Mutual Guarantee Pact on the lines proposed last summer by the French and Soviet Governments, as amended at the suggestion of the British Government. They had not been informed what action if any the French and Soviet Governments propose to take in response to these observations from Berlin and Warsaw.—*British Wireless.*

## SHIELDS TO APPEAR ON THE SCREEN

New York, Oct. 31.

Frank X. Shields, the famous American Davis Cup player, has signed a seven year film contract with Metro-Goldwyn-Mayer and will arrive in Hollywood on November 15.

In view of the fact that the contract does not require him to play tennis on the screen his amateur status will not be impaired.—*Reuter.*

## SOCIALIST INFLUENCE IN SPAIN

(Special to the "Hong Kong Daily Press")

Paris, Oct. 31.

The leader of the Spanish Marxists, Prieto arrived on Tuesday night at Paris where he declared that the failure of the Insurrection had not weakened the Socialist forces in Spain. As before, the Socialist is the best organised party. Prieto denies that any foreigners took part in the Insurrection.—*Transocean Kuo Min.*

## RETURN FLIGHT TO ENGLAND

## Cathcart Jones At Athens

(Special to "Hong Kong Daily Press")

(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894.  
Received, October 31, 4:30 p.m.)

London, Oct. 31.

Jones and Waller landed at Karachi on Tuesday at 12.50, leaving for Baghdad the same evening. They are now on their last stage of the attempt to break the record of Scott and Black. Their plan is to make a non-stop night flight from Baghdad to London, arriving at the destination on Wednesday afternoon or night. If all goes well the probability is that they will succeed in establishing the record attempted. If so this will be in a large measure due to the sporting spirit shown by the Mollisons.

Jones and Waller are flying a Havilland Comet machine same as that of the Mollisons. When Jones and Waller reached Allahabad on Tuesday they found the motor defective. The Mollison couple, who are still in Allahabad, immediately offered to change the defective cylinder for one out of their own machine. After a delay of nine hours, Jones and Waller continued their flight.—*Transocean Kuo Min.*

## AT ATHENS

London, Oct. 31.

The young Australian, Melrose, is the latest competitor to arrive in Melbourne.

## FLIGHT ABANDONED

Col. Fitzmaurice has indefinitely postponed his flight to Australia as his plane is unfit for high speed long-distance hop. Fitzmaurice will ship his plane to America and have it overhauled and altered in the American factory where it was built.—*Transocean Kuo Min.*

## THE MOLLISONS

Calcutta, Oct. 30.

Capt. and Mrs. Mollison are entraining at Calcutta to-night on their way to Allahabad from which point they will fly for England to-morrow, providing the repairs to their plane have been effected.

They sportingly agreed to let Cathcart Jones take a cylinder out of their machine to assist his expeditious return to England.—*Reuter.*

## AIR RACE PROGRESS

Melbourne, Oct. 31.

C. J. Melrose arrived at 11.15 p.m., having left Charleville at 1.25 a.m. with an excellent chance in the handicap event.

Lieut. M. Hansen arrived at Cloncurry in the dark and is spending the night there. He exhausted his petrol on route and his reserve tank pump was not working, but he descended and managed to refuel his main tank.—*Reuter.*

## INCREASE OF ARMAMENTS

## Peaceful Intentions Under Suspicion

(Special to "Hong Kong Daily Press")

(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894.  
Received, October 31, 7:30 p.m.)

Berlin, October 31.

Two important speeches, one by the French War Minister, Marshal Petain and the other by the British Premier, Mr. Ramsay MacDonald, announcing steps for the increase of armaments in their respective countries, have prompted the semi-official "Deutsche Diplomatisch Politische Korrespondenz" to recall the fact that although the disarmament conference is officially still going on, many countries in the world are feverishly increasing their armaments, the equipment being already far above normal. While this is going on, the very same countries protest against Germany's demand for equality of rights.

Petaim's speech has aroused great uneasiness in Germany because the reports give only vague reasons for the necessity of increasing expenditure. Petaim is alleged to have said that the increase of armaments in other countries made it judicious for France to content itself with an increase in the number of men under arms but requires also an accelerated accumulation of reserve stores and modernisation of material. The War Minister then referred to "foreign political difficulties especially in connection with the Saar plebiscite." In the absence of the full text of Petaim's speech, it is difficult to see what the plebiscite of the peaceful Saar population can have to do with French armaments.

When, in addition, Mr. MacDonald urges the rapid strengthening of British armaments, Belgium extends her military programme, Czechoslovakia returns to two years' compulsory military training, Yugoslavia increases her defence forces, the time seems past when any nation can rely entirely on the peaceful intentions of its neighbours.—*Transocean Kuo Min.*

## UNEMPLOYED IN FRANCE

(By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894.  
Received, October 31, 7:30 p.m.)

Paris, Oct. 31.

The unemployed in France who are drawing relief have increased from 334,051 on October 13 to 339,822 on October 20, according to official statistics.—*Transocean Kuo Min.*

## SHARP FALL IN RUBBER

## The Agreement Defficulty

London, Oct. 31.

Rubber fell sharply to-day on the announcement that the regulating Committee has adjourned and this led to nervous selling. The market is unsettled and anxiously awaiting the date when the Committee will meet again, but all circles are confident that some agreement will be reached unanimously. They are of the opinion that the adjournment is due to the difficulty of reconciling the Dutch and other interests' ideas about cuts.

The "Times" gives the opinion that the failure of the Committee in reaching agreement was due to the difficulties experienced in some countries making restriction effective.

The "Financial News" states it is inevitable that some discussion will arise regarding the possibilities of a breakdown in the international agreement, but such a contingency is too remote to be given a moment's thought and it is difficult to believe that an agreement will not be reached and that in a short time.—*Reuter.*

## NAVAL TALKS IN LONDON

## Critical Stage Reached

London, October 31.

The naval discussions have reached a critical stage and it is hoped that to-day's meeting between the Japanese and American delegates may break the deadlock and become the turning point towards a compromise.

Both the Americans and the Japanese are fully informed on their respective viewpoints and the delegates are now exploring the situation with a view to finding a basis for future discussions.

The Japanese standpoint is strongly non-committal. While they are prepared not to achieve parity immediately if conceded by Britain and America, she wishes to attain parity over a period of years.

The British and American delegates expressed a firm desire to adhere to the 5-5-3 ratio and thus the proposed gradual achievement of parity is likely to meet with opposition as involving a departure from the ratio.

The present position may be described as a breathing space.—*Reuter.*

## SPEED UP THE BREAKFAST

A recent cookery research, carried out by the staff of the Good Housekeeping Institute under the supervision of the Director, has proved that:

1. Breakfast is 30 per cent. faster by gas than by any other means.
2. Where gas takes 5 minutes to boil water, the next quickest fuel takes 8 minutes.

In a word the use of gas means punctual breakfasts—no grumbles—no delays. Gas cookers give the speediest service.

And speed is what is wanted in preparing most meals—breakfast in particular.

## HOME FOOTBALL GOSSIP

## Storming Finishes To League Games

The Football Association will tell us soon whether or not the Italians are coming to Highbury on November 14. It is hoped that they release something more informative on this subject than the customary "skeleton" bulletin.

This is the match for which the Soccer world is waiting. England, to oblige Italy, who are the European champions, played in Rome in May, 1933, with all the weather conditions against them and with their players past their freshest after a hard season of League and Cup strife.

Italy's case for a later date is that with their prestige and their title to consider they need more time to do themselves justice in England. They forget that the English season is only a few weeks old.

My information is that the Italians will protest, but will accept the date offered. If they decline it will be a long time before the F.A. will be in the mood either to send a team to Rome or play Italy in this country.

## LEAGUE INTERNATIONAL AT CHELSEA

A fortnight before the Italians are due here there is a League international against the Scots to be played at Chelsea—a Wednesday match which will draw a big crowd.

This is Scotland's big chance to find how they stand in regard to home talent. No doubt the English selectors will stand by the eleven that beat Wales but they should not be in too much hurry to conclude that the team is beyond improvement.

There will be keen disappointment in London if Bastin is not in the side, and the opportunity should be taken to try out another centre-half in Barker's place.

It is agreed that England have found a team, but it is possible to make the side even more efficient in three positions—outside-left, inside-right and centre-half.

If the Italians came to town—and confidently felt they will—we must not only win, but win by a substantial goals margin.

## ARSENAL NOT AT THEIR BEST

The League's Big Three are marking time. Both Manchester City and Arsenal were glad to escape with a point on Saturday, and Middlesbrough, who have only registered one win this season, drew at Sunderland.

The City were actually losing 3-1 to Blackburn on their own ground at one point, and only drew level by means of a penalty and a last-second goal of the fortuitous variety.

Arsenal were saved at Stoke by a hotly debated goal eight minutes from the end, and so these two will meet at Highbury next Saturday for the big test, with chastened views about their own supremacy.

Manchester City will, however, be heartened by the knowledge that they have a definite half-back advantage over their rivals.

One has to watch Arsenal playing away from home to realise that there is something not quite right with the team.

## THE MONEY-SPINNERS

Incidentally it is said that all the stand seats for the Spurs match at Highbury in two weeks' time, and most of the reserved accommodation for the Manchester City game, next Saturday, have been already booked.

These two matches will add round about £10,000 to the Arsenal's "swelling" bank balance. On Saturday at Stoke, although it rained ceaselessly the crowd (45,349) was the biggest ever seen on the ground.

Arsenal remain the premier box-office attraction in Soccer.

## BOLTON'S HURRICANE SCORING

McClean, of Blackburn Rovers, was ordered off the field in the Manchester City match.

While it is true the "black list" at the F.A. offices is abnormally long this season, it is not feared that there is any serious rough play menace to worry about. Rather let us be grateful for the very definite decrease in the number of foul players in recent years.

Sunderland, like Manchester City and the Arsenal, were losing until the late stages of their game with Middlesbrough. In fact, the feature of the week-end games was the storming finishes on many grounds. Bolton scored five times in the last eight minutes and West Bromwich five in the last ten.

Once the Albion live-wire centre, W. G. Richardson, was seen to score four in five minutes, but Bolton's hurricane harvest must be without parallel in League history.

## THE VALUE OF WESTWOOD

Westwood did the hat-trick before half-time for Bolton, and it is good to know that this young player's leap to international fame is not in the least likely to spoil him as a club player.

There are three First Division clubs prepared to go to five figures for Westwood's signature on a transfer form the moment Bolton say the word, but Bolton will not consider the most fantastic bids. "Spurs" were among the clubs concerned in last-minute sensations. With practically the last kick of the game, a young Leicester reserve full-back, saved Tottenham from defeat by misliking past his own goalkeeper.

## ASTON VILLA RUMOURS

Huddersfield, with their new attack, have moved from bottom place in the table, and there is some significance in Derby County's victory at Preston.

Aston Villa, trounced 5-1 at Grimsby, have denied that Mort, Tate, Gibson, Chester, Mandley, Talbot and Bowen are on the transfer list. It does not necessarily follow that the Villa are not prepared to consider offers for some of these players.

We shall not be surprised to see other well-known players follow George Brown from Villa Park.

Grosvenor, who broke a leg last December when he was fairly well established in the England side, made a successful return to the Birmingham team which beat Portsmouth. If he can recover full confidence he might be the Scottish match-be the inside-right England needs.

## NEWCASTLE IN THEIR STRIDE

Newcastle United, under Weaver's captaincy, are in their stride at last, and with only Bolton playing consistently it is not too early to suggest that the Second Division promotion fight may develop into a two-club race in the second half of the season.

In the Third Division the fall of Chester at home and the failure of Charlton to beat Crystal Palace at the Valley mean leadership changes.

Tranmere Rovers, the last of the unbeaten clubs, have surrendered, and Bristol Rovers, the only club without a win, have at last broken the ice.

## GEORGE LOTT AND STOEFFEN

## May Join Ranks Of Professionals

New York, Oct. 31. George Lott and Lester Stoeffen, American tennis players, are considering the question of entering the professional ranks according to a statement made by Mr. Mercer Beasley last night.

If this happens it would mean a new Davis Cup doubles team, and Mr. Beasley thought that Budge and Mako would constitute the next team.

## WORLD'S AUTOMOBILE RECORDS

[Special to the "Hong Kong Daily Press" (Copyright)]

Budapest, Oct. 30.

The German attack on the world's automobile records is apparently developing into a duel between the two firms, Mercedes-Benz and the Auto Union.

The famous German racing driver, Caracciola, in a new Mercedes-Benz "racing limousine" succeeded on Tuesday on Gyon near Budapest, where only last Sunday was established new records for a flying mile and a flying kilometre in breaking the record set up by Hans Stuck with an Auto Union car on October 20 for a standing mile, from 187.86 to 188.675 kilometres per hour. Caracciola, however, is not yet satisfied and will make still further attempts to improve the record.

## DRIVE AGAINST ILLITERACY

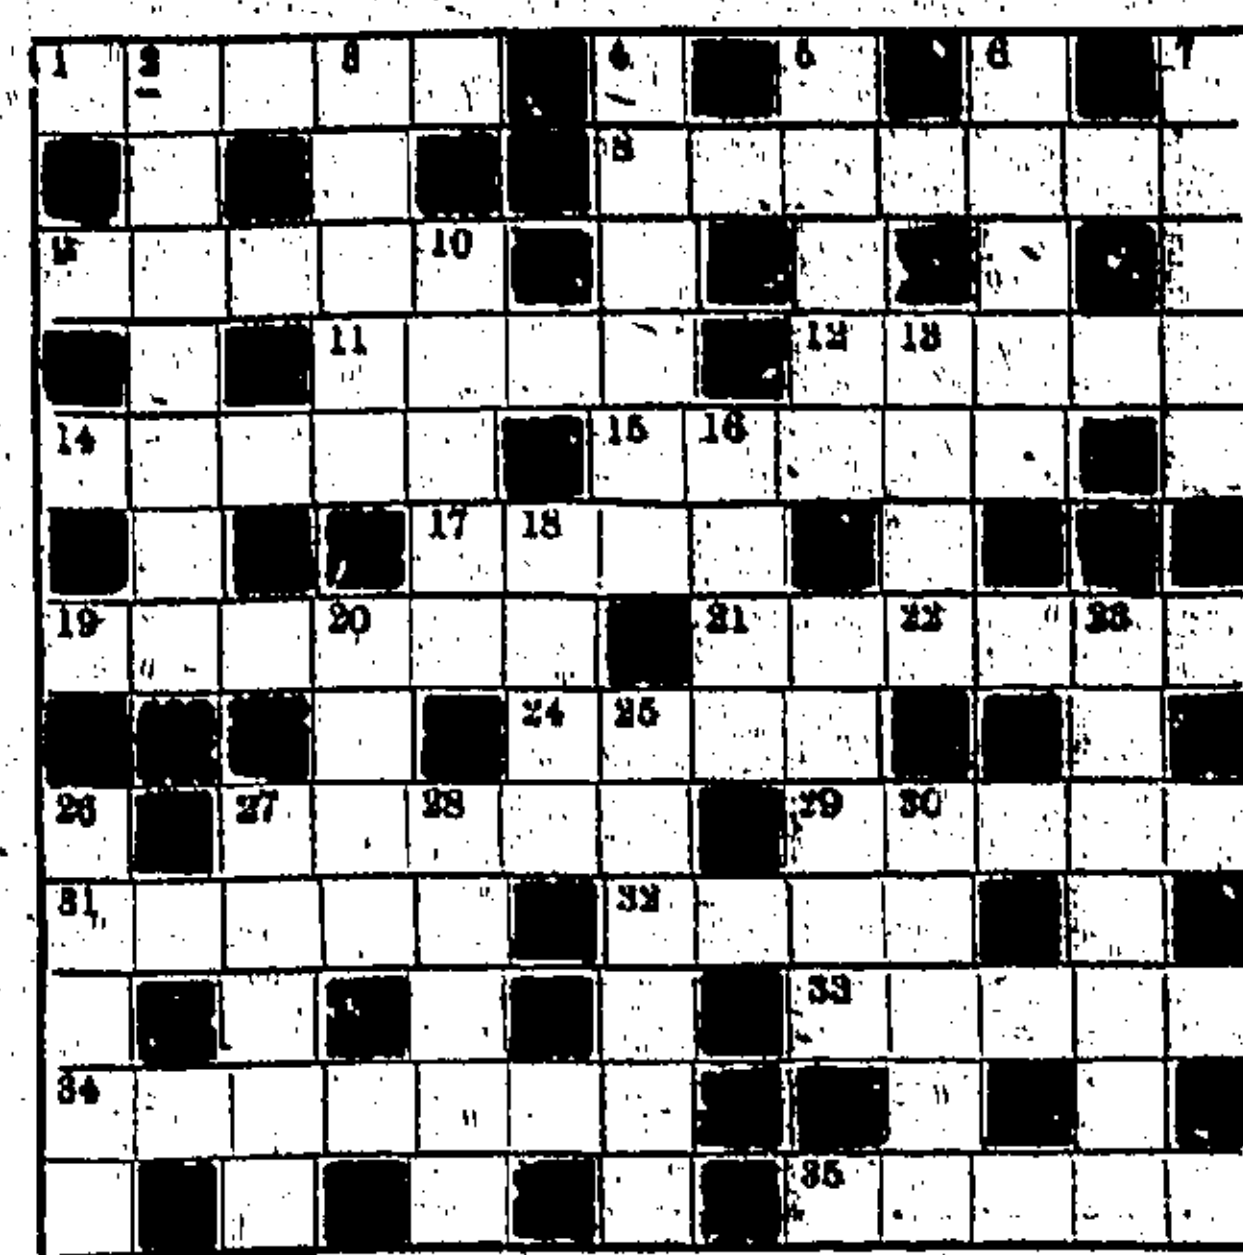

[Special to the "Hong Kong Daily Press" (Copyright)]

Warsaw, Oct. 30.

A big drive against illiteracy has been planned to begin in November by the School Association in Poland where there is still more than six millions who cannot read and write. The campaign will be carried out under the slogan "One month for the abolition of illiterates" and the fact that the majority of them are Russians and Ukrainians who are ignorant of the Polish language.

## TRAINING GALLOPS

## Preparing For Saturday's Meeting

(BY "MORNING DEW")

No very fast times were recorded on the course yesterday although some of the gallops were of more than ordinary interest.

One of the outstanding features of the morning's work was a mile by King's Warden who took 2.10 for the journey, covering the last half mile in 1.01. This pony will be a big factor in the Griffin's Cup on Saturday and will probably solve the problem of where the St. Leger will be going. The "Dynasty" stable, in fact, has a very strong claim for the St. Leger as their other candidate, King's Fancy, is also at the top of his form. He covered six furlongs in convincing style yesterday.

Breechin and Mayflower, who are due to meet over a middle distance event on Saturday, moved impressively. Others that went well were Tiny Star, Flying Tourist, Chesterfield, Ribble, Racing Boy and Gladiator.

The times "clocked" yesterday were as follows:—

## Forecast For Saturday's Games

(BY "LEFT OUT")

There is another full programme of football matches this week and in addition to picking out the probable winners (given in big type), I have given the distance the teams will have to travel for their fixtures as this should be able to help readers to form an opinion regarding the chances of each team.

The programme for this Saturday is as follows:—

## KWANGTUNG BANK

### Currency Unmoved By Rumours

(From Our Special Correspondent)

Canton, Oct. 30.  
In spite of alarming rumours over the Communist invasion last week, the notes of the Kwangtung Provincial Bank have not sustained any depreciation.

This is due to the amount of reserve in the Bank, which is said to be enough to meet all demands. Speculators are spreading alarming rumours in order to secure profits after the depreciation of the government notes, but they have failed in their scheme.

Apart from sufficient reserve in the Bank, the Provincial Department of Finance has circulated the banknotes to the counties, and there are twenty-nine official money changers scattered in the different counties to change the notes for cash or vice versa.

The total amount of notes in circulation amounts to \$12,000,000. In case of necessity, the authorities can shorten the amount in circulation. Mr. Au Fong Po, Provincial Commissioner of Finance, claimed that the silver reserve in the government bank is 80 per cent. of the amount of notes in circulation.

## MERCHANTS IN FLIGHT

### Fear Of The Reds

(From Our Special Correspondent)

Canton, Oct. 31.  
Communist troops who have fled from Southern Kiangsi are reported to have arrived at Yucheng and Ichang in Southern Hunan very close to Kwangtung. Hunan troops under General Ho Chien are fighting the Reds who are bent on escaping to Szechuan in north-eastern Hunan.

Wealthy merchants in Yucheng have arrived at Loehang in Northern Kwangtung to escape wrath of the Communists. Many people at Pingshek, which is above Loehang, have also gone to Loehang or Shaukwang for fear of the coming of the Reds.

It appears likely that the Communists will make an attempt to capture the border towns, so that they may take away everything they can carry without charge. However, there are heavy concentration of Cantonese troops along the Hunan-Kwangtung border. A report states that fighting has already broken out near Pashua, north-west of Pingshek.

## HIDE-AND-SEEK

### With Government Troops

Kaifeng (By Mail): With a view to better administering the bordering districts between Honan, Hupeh and Anhwei provinces local leading politicians believe it desirable to institute there a special administrative area. A recommendation to that effect will, it is understood, be made to the forthcoming Fifth Kuomintang Congress.

Owing to the mountainous nature of these districts which include approximately the former prefecture of Jukuang in Honan, the former prefectures of Yingliu and Shouchunhsien and Fengtaihsien in Anhwei, and Lishanhsien, Machenghsien, Lotenhsien, Chishuihsien and Huangmeihhsien in Hupeh, it has been found difficult in the past to suppress the Communist bandits there who play "hide-and-seek" with government troops. The institution of a strong regional government would, however, form a natural check to such Communist banditry, it is believed.

This measure is further necessitated in view of the backwardness of the people's intelligence and livelihood at these districts. For, owing to the lack of adequate communications and incessant Communist disturbances, most of the populace are ignorant farmers and villagers, leading a precarious life. To heighten their intelligence and to improve their livelihood the introduction of an effective system is considered urgent.

### SWATOW NOTES

(From Our Own Correspondent)

Miss Joan Churchill arrived in Swatow last week for an extended visit as the guest of Mr. and Mrs. P. W. Watkinson. She is remembered by some of us as a very popular previous resident, and we are glad to welcome her back even if only for a time. We understand that Miss Churchill is to be married in January, and her Swatow friends extend their good wishes in advance.

Mdme. Cadol (wife of the French Consul) and daughters Jeannine and Annette left last week for a trip to Japan leaving Hong Kong on the French liner Portheos.

Mr. H. D. Hilliard (Commissioner of Customs) returned last week from a short vacation in the North.

Mr. H. F. Russell (A.P.C.) returned to the Port this week from Amoy, where he has been stationed temporarily for the last two months.

Mrs. R. S. Pratt and daughter have arrived back in Port from England, where Mrs. Pratt has been on holiday. We welcome Mrs. Pratt back as an old resident and Miss Pratt as a newcomer to the Community.

### Shooting

We hear that the first "teal" of the season was bagged by Mr. Moyle (I.C.I.) last week. Snipe are coming in and we heard of Mr. Watkinson and another resident getting a "bag" of 10 last week in the evening.

### Congratulations

To Mr. and Mrs. Frankenberg on the birth of a son, born to Mrs. Frankenberg in Hong Kong on October 9th. Unfortunately Mr. Frankenberg has been transferred, so our congratulations cannot be offered in person, but we take this means of extending them, to a couple who have been very popular members of the community for a couple of years.

### Movies

Last Saturday's show was exhibited to a full house, seating accommodation being hard to find for the late-comers. The picture "A Night Like This" was greatly enjoyed, and we believe, had the largest audience of any evening since the Movies started.

### Local Finance

The juggling of local finance continues unabated. Silver costs somewhere about 18 per cent. The Customs will not receive anything except silver and Gold Unit notes and the Post Office silver and Kwangtung notes. Native notes are to be avoided altogether owing to their heavy depreciation.

Rumour states that a few weeks ago the Bank of Taiwan was holding a large amount in native notes which were either forgeries or notes of closed banks, and consequently they stood to lose a large sum.

The story has it, that the Japanese Consul took the matter up and by a little moral suasion had the notes guaranteed. Whether the story is true or not, the money situation is certainly bad for everyone except the banks, who are apparently grafting on the public. A probable solution would be to close all the native banks, which at no time are reliable, and have one really good bank under Government control.

### Sports

The Customs Club is again to the front in organizing a "knock-out" tennis tournament which will be played on Sunday, October 28th.

The contestants are to make up their own pairs, and judging by the number of entrants the tournament promises to be very interesting.

The opening of the Sports season commenced last Saturday with a hockey match in Kakehioh. The turnout was the largest we have seen since 1932, and we hope the members of the Recreation Club will continue to turn out in such good numbers, and thus make our sporting activities more interesting than they have been for the last two years.

The British submarine "Rainbow" has been a visitor in Port during this week, and various sporting events were arranged during their stay. The Members of the Swatow Club organized a Whist Drive in the Club on Wednesday evening, with members of the Rainbow as their guests.

### ANTI-RED WAR

#### Communists Suffer Heavy Losses

(From Our Special Correspondent)

Canton, Oct. 30.

Fighting in the Southern Kiangsi front has calmed down, considerably following the retreat of the Communists, declared Brig-General Li Hok Ling, assistant director of Intelligence of the First Group Army, in an interview to-day.

"Our troops were aware of the offensive and had made suitable preparations beforehand," General Li said. "Most of the fighting was done by two regiments of the First Division. Bloody battles as reported in the outport papers are grossly exaggerated."

It is learned from reliable sources that the troops have escaped to Southern Hunan on their way to Szechuen. Whether they can pass through Hunan depends on the resistance of the provincial troops there. This move on the part of the Communists is known to the high command at Nanchang, which has ordered General Ho Chien of Hunan to take proper precautions.

"The Communists have suffered heavy casualties," a field officer informed newspaper men upon return from the front. "Our forces suffer losses, but the Communists suffered more. The battlefields around Koo Pe, Shun Tien and Hsin Feng were littered with dead bodies of the Communists."

"Over 30,000 Reds made an attack on An Yuan, which was held by the Second Independent Brigade. Having failed to secure their objective, the enemy retired on October 27."

"There have been reports that Brig-General Mo Hsi Teh and Colonel Pang Lin Sheng were killed or wounded in action. This is untrue, as both are well. We do not know how such reports could have been published by the outport papers. The enemy is now retreating towards Hunan, while General Yu Han Mou is directing his troops in pursuit."

## TWO BRANCH LINES

### For Kiangsu And Chekiang

Nanking, (By Mail): Construction of the two projected branch lines of the Nanking-Shanghai and the Shanghai-Hangchow-Ningpo Railways, namely one from Chakou to Tsaoekiang in Chekiang and the other from Soochow to Kiangsi, in Kiangsu, will shortly be started, according to information from the railway authorities.

Already a loan agreement has been signed with the British and Chinese Corporation, from which \$16,000,000 will be raised to cover construction expenses for both lines.

Survey of the Chakou-Tsaoekiang branch line with a total distance of 80 kilometres has long been completed, and tenders for its construction, it is learned, are being invited. According to plans already formulated, it is to be completed within a year and a half. The most cumbersome piece of engineering work along this line will be the construction of a bridge across the Chientang River, completion of which will facilitate direct traffic between Shanghai, Hangchow and Ningpo.

The Soochow-Kiangsi branch line will run through Wang-kiang-chin, Hsingtsch, Pingwan, Paich, Wukiang and Weimen with a total distance of 75.7 kilometres. Its construction is necessitated, it is understood, by the expected increase of goods transportation upon the completion of the Chakou-Tsaoekiang branch line.

Survey of this line was already completed last July, and tenders for its construction are also being invited and it is scheduled to be completed within one year.

## CUSTOMS HOUSE PROPOSAL

### Demonstration In Canton

(From Our Special Correspondent)

Canton, Oct. 31.

The vernacular press has caused unnecessary anxiety and excitement here as seen in the meeting yesterday afternoon, when 200 persons representing different commercial bodies and trade unions marched along the streets and distributed handbills attacking strongly the scheme to open Chinese Customs stations in Hong Kong.

A meeting was held at noon under the auspices of the Provincial Kuomintang. An official of the Kuomintang opened the meeting with a fitting speech denouncing the Hong Kong Customs project, and then resolutions were passed opposing this scheme supposed to be mapped out by the National Government in Nanking.

After the meeting, the delegates marched to government offices to place their "grievances" before the high officials. The 200 delegates were preceded by a bicycle squad who distributed the handbills, with another bicycle squad bringing up the rear. At the front of the procession was a long crosswise banner inscribed, "Customs in Hong Kong Means Death to Canton Trade."

When the contingent reached the Kwangtung Provincial Government to present their opposition against the customs scheme, a secretary informed the delegates that no official notification has been received concerning this matter. Even the Customs authorities here have no official information on this matter, and what they know is through the Chinese newspapers published here and in Hong Kong.

It is a mystery how the vernacular press got hold of such a story about Nanking's decision to establish customs in Hong Kong. Apparently it was deliberately manufactured or circulated through some mistake. The mistake arose from the fact that there is a Chinese Customs in Hong Kong to take charge of Kowloon and District. What the people here fear is that Nanking may require all export and import duties be paid at Hong Kong.

It is only rumoured that the Ministry of Finance desires to establish customs in Hong Kong as a means to prevent smuggling in South China waters. Nothing definite has been decided. Officials and merchants here believe that this matter is harmful to local trade, and agitations are intended to nip the matter in the bud.

## TO ENCOURAGE EFFICIENCY

### Certificates Awarded

Nanking, (By Mail): Ten power companies in various parts of the country have been awarded certificates by the National Reconstruction Commission in accordance with the regulations promulgated in 1930, in which it is provided that well managed power companies are to be awarded appropriate certificates by way of encouragement.

These ten concerns include the Power Company of Hangchow, the Chapel Hydraulic Power Company of Shanghai, (A class certificates), the Pootung Power Company of Shanghai, the Power Plant of Soochow, (B class certificates), the Power Company of Suiyuan, the Weyu Power Company of Shansi, the Ming Hui Power Company of Pinghu, Chekiang, the Tai Chih Power Company of Kwanshan, Kiangsu, the Hua Ming Power Company of Kiangying and the Power Company of Changsu. (C class certificates).

A total of 179 companies classified into four different groups, have submitted their annual reports for 1933 to the Commission for examination, the result of which was the awarding of certificates to the above-named companies. None in the fourth group, however, was favoured with the honour, due to under par management.

The Commission has also sent a guide book to each of the companies with a view to directing them in their efforts for improvement.

## CHINESE GOODS

### Exhibition At Sincere's

Over 200 prominent Chinese merchants and manufacturers were present at the Second Annual Exhibition of Chinese Manufactured Goods, which was held on the fifth floor of the Sincere Company's premises yesterday afternoon.

Mr. Wong Kwong Tin, Chairman of the Chinese General Chamber of Commerce performed the opening ceremony, and among those present were Messrs. Ma Ying Flu, Ma Leuk Pun, Yip Lan Chuen, Chan Ping Au, Chan Yue San, Choy Hing, Lui Yam Shuen, Yung Koon Man, Chow Shing Chi, Chan Tit Yat and many others.

The exhibition which is very well arranged, occupied nearly the whole fifth floor, and is divided into 58 sections, occupied by the different exhibitors.

The exhibits comprised over thirty classes of Chinese manufactured goods, the most popular ones being perfumes, biscuits and confectionery, knitting goods, porcelain, handkerchiefs and towels, raincoats, cigars and cigarettes, silk, cloth, torchlights and dry-batteries, aerated water, rubber-shoes, tea, rattan-goods, organs and pianos, lacquer and sporting goods.

The exhibition represents 50 Chinese factories from Hong Kong, Canton, Macao, Shanghai and Hangchow, and is on a larger scale than that which was held last year.

One of the outstanding features is that the majority of the exhibits were displayed on artistic stands arranged and designed by experts of the Company.

The exhibition will continue for ten days from Thursday 1st to Saturday November 10 1934 inclusive, and will be open to the public from 8 a.m. to 8 p.m. each day.

All are welcome, there being no charge for admittance.

## NEW YORK STOCK AND COMMODITY QUOTATIONS

AMERICAN ORIENTAL FINANCE CORPORATION AND S. E. LEVY &amp; CO.

New York, Oct. 30. The American Oriental Finance Corporation's report through their New York agents, Messrs. E. A. Pierce & Co., states:—

Stocks: The market was extremely selected and some buying of specialties was presumably based on hopes of extra cash dividends from surplus funds.

Wheat: Although trading was inactive, there was no important pressure. Late in the session, the market rallied on short covering and scattered Commission House buying. The decline in Liverpool was ignored, while the Winnipeg market was supported early in the day.

Cotton: The market was small. The switching from near positions constituted a large percentage of the business. The strength of the "Spot" situation was a sustaining factor. "Spot" houses bought near cotton.

Rubber: There was some selling on unconfirmed adverse rumours regarding the restriction quotas. Dealers were the principal scare buyers.

Bonds: The market is exceedingly dead and featureless because of uncertain company earnings. There may be some irregularity from time to time in speculative bonds. We recommend the better type of medium grade issues both for income and later appreciation, such as the following: National Dairy Products, 5 per cent. at \$48;

## SILVER BRIDAL ROBE

For Princess Marina

(Special Air Mail Service)

London, Oct. 13. It is authoritatively announced that Princess Marina's wedding gown of silver lamé is to be made in London at Capt. Molyneux's establishment.

It is understood that the Princess's eight bridesmaids, at her wedding to Prince George in Westminster Abbey, on Nov. 29, will include:

Princess Ingrid of Sweden. Princess Juliana of the Netherlands.

Princess Eugenie, daughter of Prince George of Greece and cousin of King George of Greece.

Princess Catherine, sister of King George of Greece and daughter of King Constantine.

Princess Kyra, daughter of Grand Duke Cyril of Russia.

It is possible that Princess Irene, sister of Princess Catherine, may also be a bridesmaid.

## The Little Princesses

The little Princess Elizabeth, the Duke of York's daughter, it is expected, will be one of Princess Marina's attendants. It is considered possible she may be accompanied by her three-year-old sister, Princess Margaret Rose.

Prince Nicholas, Princess Marina's father, when discussing the marriage arrangements said:

"I do not know whether the names of all the bridesmaids have been definitely fixed. There are, for instance, several relatives of mine, nieces and cousins. Then, naturally, there is the little Princess Elizabeth, and perhaps others, too."

Prince George and his bride, it is stated, intend to spend their honeymoon in England. They will join the King and Queen for Christmas, at Sandringham, where the Royal family always gather for the festival.

Early in the New Year, it is anticipated, the Prince and Princess will travel abroad for some time, but this is not yet definitely settled.

## Antique Lace Veil

Details of Princess Marina's wedding gown were given this morning by Capt. Molyneux. It is to be of silver lamé with an English rose woven through in the design. The gown will be on a simple Princess line with a trained length in an otherwise slim skirt. Long sleeves, too, will appear, but they will be more of the moyen-age than the tight-fitting type.

The Court train, measuring about six yards long, will also be of silver lamé, and lined also with silver lamé, woven in Lyons. The Princess's shoes will likewise match the gown.

Princess Marina will wear the veil of antique lace which belongs to her family and which was worn by her mother, Princess Nicholas of Greece, and her sister, Princess Olga, at their weddings. A diamond tiara will crown her head, and she is expected to carry Madonna lilies.

The Princess is still busy preparing her trousseau. Her visits to Molyneux usually take place in the morning. Fittings and consultations take about two hours.

Capt. Molyneux said that the bridesmaids are to wear white crepe woven with a delicate silver thread to make a perfect background for the brilliant silver bridal gown. Headresses are to be worn by the bridesmaids, but the character of these has not yet been disclosed.

Some of the gowns will be made in Paris and some in London.

## RUBBER REGULATION COMMITTEE

London, Oct. 30.

A communique states "The International Rubber Regulation Committee met for its monthly meeting to-day and the advisory panel was completed by the appointment, as representing the rubber manufacturers of the United States, of Colonel A. F. Townsend, who was present at the meeting."

The Committee discussed the question of percentage of basic quotas which will be fixed with effect from January 1, 1935, to regulate permissible exports during the initial part of the year. Agreement on this point was not reached and the meeting adjourned.

## S.E. Levy &amp; Co.'s Cables

The following cabled reports were furnished by Messrs. S. E. Levy and Company last night:—

American Weather Report: Weather conditions in the Grains are unchanged. The weather in the Cottonbelts is fine and warmer.

London Silver: Spot 23 3/8, down 3/16; Forward 23 7/8, down 1/4.

London Silver Comment: The fall is chiefly due to speculators reselling. The American Government bought. Market closed steady.

The Market: Favourable factors prior to the opening of the markets:—1, Steel news is more encouraging, with heavier bookings reported in the Chicago district; 2, Minor reactionary tendencies fail to induce important selling.

Unfavourable factors:—1, The U.S. Steel Corporation's report is about as unsatisfactory as had been expected; 2, Further sales of seats on the Stock Exchange at \$75,000 and \$70,000 is construed as reflecting pessimism regarding the volume of trading in the near future.

## LATE NIGHT CABLES

The following cables were received last night by the American Oriental Finance Corporation and S. E. Levy & Co.:

## London Forecast

Stocks: The publication of the U. S. Steel Corporation's report is expected to create an unfavourable impression on Wall Street, resulting in a quiet and dull session.

Wheat: The market is likely to be influenced by the weakness of the Buenos Aires market, which continues to be a depressing factor. The Winnipeg market continues uncertain, owing to uncertainty regarding the Canadian Government's intentions on the question of the regulation of wheat trading.

Rubber: Rubber prices are expected to open sharply lower in sympathy with London.

Cotton: Textile reports are encouraging, but the weakness of next season's crop reflects uncertainty regarding the Government's plans. It is thought, however, that the Administration will not abandon the market. Weather conditions are again mild, but the market continues in a state of deadlock in view of the tight "spot" situation.

## BRITISH LOSS

### In Insult "Crash"

(Special Air Mail Service)

London, Oct. 13.

How much money did the British public lose in the Insult crash? An examination of the records shows that a total of over £29,000,000 for shares in Middle-West Utilities, one of Mr. Insult's most active companies, was subscribed by British brokerage and banking firms.

These shares were extensively dealt in London, and often at highly fictitious prices. The greater number of them were undoubtedly purchased by small investors from the rank and file of the British public. But many famous names appear in the companies' record books which form part of the exhibits at the present trial.

That the Prince of Wales invested money in this company is stated by Mr. O. E. McCormick, treasurer of the Middle-West Utilities. "One broker who bought a block of shares through the Insult company," he said, "was subsequently found to be a distant relative of the Prince, and admitted that he had made the purchases on the latter's behalf."

The list of names includes the following:

Sir John Simon, 119 shares; Lord Fairfax of Cameron, and another, 53; Gen. R. M. Foot, 118; Lord Dawson, 350; Sir William Stowell Haldane, 358; Sir Henry Holder, 741; Lady Hetty Menendez, 35; the Hon. Sir Patrick Ramsey, 131; Sir Philip Richardson and another, 437; Sir Alexander Walker, 240, and Sir Norman Watson and another, 4,839.

### POST OFFICE RATES

The Postmaster General announces that as from November 1 the Parcel Post rates to the United Kingdom will be reduced to:

3 lb. 7 lb. 11 lb. 22 lb.  
\$1.40 \$2.50 \$3.50 \$6.00

The reduction is hoped will have a stimulating effect on the Christmas parcel post which closes on November 9.

## GERMAN SHARE MARKET

(Special to the "Hong Kong Daily Press" (Copyright.))

Berlin, Oct. 30.

Stagnation on the sharemarket continued, transactions being few and small. Despite Schacht's speech taking an optimistic view in the rawstuffs situation, investors proved unresponsive. Fixed interest securities were also dull but price changes were occurring tended towards firmness, especially in the case of gold and mortgage bonds. Call Money 4 to 4 1/4—Transocean Kuo Min.

### UNITED SUA BETONG EXPANSION

(Special Air Mail Service)  
London, Oct. 13.

The announcement made here yesterday that the United Sua Betong Rubber Estates had acquired an additional large estate is now confirmed. Situated in Central Johore, the new area covers 7,337 acres, planted with trees ranging from two to eight years old. The potential crop for 1935 is estimated at 2,122,500lb., rising to 3,498,000lb. in 1939.

The purchase price is the modest one of £31 15s. per planted acre. It is estimated that it will cost £26 7s. per acre to equip the estate and bring it to maturity. The company has also bought a tea estate in Selangor for £2,940 in cash and 9,429 fully-paid United Sua Betong shares.

To finance these acquisitions the company is offering 137,202 shares at £2 10s. per share to the shareholders, with the right to subscribe to one new share for every five held. The existing shares stand at £3, so that the right is worth exercising. As a result of these extensions the company will own 33,339 acres of rubber capitalised at the low figure of £22 11s. 3d. per acre, and will possess adequate working capital.
